

Skills

.NET Core

Backend, Web API, C#, Entity Framework

Angular

Frontend, TypeScript, UI/UX, SPA, RxJS

Python

Scripting, AI Integration, Automation, Data Structures

Database Management

Database, Relational Databases, Queries, Data Integrity, normalization, ER diagram, CTE, Trigger

Azure & DevOps Tools

Azure Entra ID, Git, GitHub, Postman, CI/CD

Certifications

Git and GitHub for Version Control

Kongu Engineering College

Privacy and Security in Online Social Media

NPTEL

Introduction to Industry 4.0 and Industrial IoT

NPTEL

Embedded System Design With ARM

NPTEL

Awards

Product Development Grant

Technical Business Incubator (TBI), KEC 2022

<https://kongu.ac.in/csd>

Secured INR 40,000 in seed funding to prototype an "IoT-Based Alert System for Accident-Prone Areas."

Finalist - Kavach 2023

Kongu Engineering College

2023

developed of a "Dark Web Crawler" during the internal round of the Kavach 2023 Cybersecurity Hackathon.

Publications

Efficient Detection of Cucurbit Pepo Leaf Diseases Using Advanced Image Processing Techniques

SciTePress (Scopus Indexed)

RANGA KAARTHI

Software Engineer | .NET, Angular & SQL

📍 Salem • 📞 +91 7871897402 • @ rangakaarthi2004@gmail.com

Profiles

[in RANGA KAARTHI G K](#)

Summary

Versatile Software Engineer with experience in **Java, Python, and .NET**, dedicated to writing **modular, reliable, and optimized code**. Proven ability to solve complex problems and committed to engineering excellence and building scalable, high-availability systems through continuous learning and rigorous testing.

Experience

Nallas Technologies

2nd September 2024 - Present

Intern

Coimbatore

<https://nallas.com/>

Software Engineer with **1+ year of experience** building mission-critical applications using **.NET Core, Angular, and Python**. Expertise spans the full product lifecycle, from developing **Web APIs** to integrating **AI/LLM models**. Proficient in **Azure Entra ID and MS SQL**, dedicated to writing efficient, testable code for high-performance systems.

Education

Kongu Engineering College

Oct 2021 to Apr 2025

Computer Science and Design

Engineering

7.79 CGPA

<https://kongu.ac.in/>

Projects

Dark Web Crawler

Jan 2023 – Mar 2023

A real-time crawler utilizing computer vision to identify illicit content on the Dark Web.

<https://github.com/Kaarthi2004/ShadowBot>

Developed a "Dark Web Crawler" using Python and Tor network integration to scan for illegal activities in real-time. Integrated the YOLOv7 object detection model to automatically classify images and videos. Selected as a key project for the Kavach 2023 Cyber Security Hackathon.

Python, Computer Vision, YOLOv7, Cybersecurity, Tor

IoT-based Alert System for Accident Prone Areas in National Highways 2022-2023

A hardware-software integration designed to alert drivers in accident-prone highway zones.

Secured INR 40,000 in seed funding from the Technical Business Incubator of KEC to transition the concept into a working prototype.

IoT, Embedded Systems, Raspberry Pi, Cloud Computing, Hardware Design

Volunteering

National Service Scheme

2021-2023

Member

Kongu Engineering College, Erode

Actively volunteered in the National Service Scheme (NSS). Participated in social service activities such as tree plantation, campus cleaning drives, and health awareness rallies.
