CAREER SUMMARY:

Software Engineer with hands-on experience architecting RAG pipelines and Generative AI backends using Python and FastAPI. Delivered a real-time enterprise chatbot for Verisk client, integrating LLM APIs with dynamic Angular frontends, scalable .NET Core services, and SQL Server databases.

EXPERIENCE:

Software Engineer | Nallas Technologies | September 2024 – Present

- Built 3+ production GenAI applications using FastAPI and LLMs, reducing manual query time by ~40%.
- Designed backend architectures with FastAPI, integrating LLM models, and developing scalable APIs.
- Delivered 10+ full-stack features across 3 modules using .NET Core and Angular, with SQL Server integration.

PROJECTS:

MarketStance AI (Client: Verisk) | Aug 2025 - Dec 2025

- Developed a RAG-based chatbot system integrating FastAPI backend with enterprise document databases.
- Engineered dynamic Angular frontend with real-time streaming and stateful chat UI.
- Built reusable chatbot widget for seamless integration across multiple web pages.

PromptaAI Chatbot | Dec 2025 – Feb 2026

- Architected full-stack Generative AI chatbot application.
- Developed high-performance FastAPI with async REST APIs for LLM processing.
- Designed responsive Angular UI with efficient state management and data flow.

Applicant Tracking System | May 2025 - Jul 2025

- Built microservices-based recruitment platform handling jobs, candidates, and interview workflows.
- Implemented .NET Core services with independent deployment and scalability.
- Designed EF Core code-first data layer with relational mapping and migrations.
- Developed optimized APIs using async queries, DTO projections, and eager loading.

SKILLS:

- **Languages:** Python, C#, Java
- **Backend:** FastAPI, .NET Core, REST APIs, Microservices, Entity Framework, MVC, Data Structures
- **Frontend:** Angular, React, TypeScript, HTML, CSS, Bootstrap, Material UI, Tailwind CSS, RxJS
- **Databases:** SQL Server, MySQL, NoSQL, Data Modeling
- **GenAI:** LLMs, Fine Tuning, RAG, MCP, Prompt Engineering, AI Integration
- **Tools:** Git, GitHub, Azure Entra ID, Postman, Linux, CI/CD

EDUCATION:

B.E. Computer Science and Design | Kongu Engineering College
Graduated: April 2025 | CGPA: 7.79

ACHIEVEMENTS AND PUBLICATIONS:

- **Grants:** Secured **₹40k seed funding** for an AI/IoT highway alert system prototype.
- **Hackathons:** Finalist in Kavach 2023; **Top 10 out of 100 teams**; developed a "Dark Web Crawler".
- **Publications:** Co-authored **Scopus-indexed paper** on advanced image processing for leaf disease detection (SciTePress, 2025).
